IMPOSSIBLY SOFT FLEECE

Actually, it is possible. We're making our fleece with softer fabric so it's extra cozy. Because when it's this comfortable, they'll wear it all the time – and while they're wearing it all the time, that logo is going to get lots of impressions. Seems like a win-win to us.

THE PERFECT LOOK FOR YOUR LOGO

We've got seven different ways to make your logo look great.

HXD

Going for a look that stands out? Look no further than HXD. Choose from a variety of finishes and textured patterns, so you'll always end up with a garment as fresh and unique as your brand.

Embroidery

With 10,000 stitches included in the price and thread colours to match any logo, embroidery is the way to go when you want a classic look and vivid detail.

True Edge™ Transfer

Sharp. Clear. Precise. When you want to perfectly capture every detail. True Edge™ Transfer works especially well for logos with fine lines or small text.

Deboss

Maybe you're going for a style that's a little more subtle. Deboss is perfect for creating tone-on-tone looks without compromising the integrity of waterproof garments.

Infusion

Unlimited colours, all for one setup charge. inFusion seamlessly fuses your logo with the fabric of the garment to create a trendy retail look that is 100% undetectable to the touch.

Laser

So it's unique locations you're after? Good news: Laser can be applied over zippers and seams. Get creative and put your logo where it's sure to turn heads.

Applique

Retro is in, and applique gives you a true vintage look that's perfect for large decoration. Use pre-cut letters and designs, or create your own for a custom look.

LOVE THE FABRIC?

Us too. That's why we make lots of styles using the same fabric, so you have lots of options to create a cohesive look.

If you require garment measurements, please contact customer service.

Chest

Under the arms and across the shoulder blades with a firm and level tape.

Hip

When standing, measure around the widest part of the hip.

Sleeve length

Relax arm, and measure from the centre of the back of the neck, over the shoulder and down to the outer wrist.

Waist

Measure around your natural waistline, while in your underwear. Keep one finger between the tape and your body for an accurate fit.

Inseam
